**Purpose:** VPN Access for Macintosh Users

**Scope:** Applies to University of North Texas faculty, staff and students

**Procedure:**

1. Open a web browser and go to URL “vpn.unt.edu.”
2. Enter your EUID and password.
3. Agree to the UNT Computer Usage policy by clicking “continue.”

4. On the left-hand side locate and click on “AnyConnect.”
5. Click on “Start AnyConnect”
6. Click “Trust” to accept the Cisco security certificate to continue

7. Installation of the VPN client will continue and connect automatically. (Note: based on login to vpn.unt.edu webaccess)

8. The VPN client, when active, is located in the task bar

9. Press “control” and click on the icon to view VPN Client options. “Disconnect” terminates VPN connection and continues to run the client. “Quit” disconnects and shuts down the AnyConnect VPN Client.
10. There are two methods to reconnect to the VPN. Follow steps above or:

a. Locate the “Cisco” folder under “Applications.” Expand the folder and click on “Cisco AnyConnect VPN Client.” (For easier access create a shortcut in the Popup menu or desktop)

b. Click “open”

c. Connect to “vpn.unt.edu” and enter EUID and password.

d. Accept the UNT Computer Usage Policy.
e. VPN connection is established and indicated by the icon located in the task bar.

f. Follow step 9 to disconnect VPN.
